

# VISHAL PRATAP SINGH

## Web Developer

Ambhikapuri , Indorel 9554791868 | vishalsinghvicky95@gmail.com | [www.vishal'sportfolio.com](http://www.vishal'sportfolio.com)

### SUMMARY

Web Developer with hands-on experience building responsive, user-friendly applications using React.js, Node.js, Express, MongoDB, and Java. Skilled in API integration, backend debugging, and deployment workflows, with proven success across projects like construction management platforms, scheduling systems, and AI-powered applications. Currently pursuing a Computer Science degree, combining academic knowledge with practical expertise to deliver secure, scalable, and visually distinctive digital solutions.

### TECHNOLOGIES & TOOLS

- |              |              |               |
|--------------|--------------|---------------|
| • HTML       | • REACT JS   | • JAVA        |
| • CSS        | • EXPRESS JS | • SPRINGBOOT  |
| • JAVASCRIPT | • MONGO DB   | • TYPESCRIPT  |
| • NODE JS    | • MYSQL      | • GIT, GITHUB |

### PROFESSIONAL EXPERIENCE

**Brodev Code**  
**Web Developer Intern**

- Startup Company in Client Product management
- Collaborated with designers to create user-friendly interfaces for web applications
- Integrated APIs to enhance website functionality and improve user experience
- Maintained documentation of web development progress and technical specifications

**02/2024 - 12/2024**

### EDUCATION

**Malwa Institute of Science And Technology**  
**Computer Science | CGPA: 8.0**

- Pursuing a bachelor's degree in computer science with focus on web development, Java programming, and multimedia systems. Engaged in hands-on projects involving backend debugging, deployment workflows, and automation using Java libraries like Apache POI

**11/2022 - Present**

### PROJECTS

- 1. Soulsafe AI: Digital Time Capsule**
  - Built secure platform for storing and unlocking digital memories.
  - Integrated AI emotion detection and content analysis.
  - Implemented with React, Node.js, Java, Python, MongoDB.
- 2. conBulider : Smart Construction Management Platform**
  - Developed web app for managing projects, tasks, and client workflows.
  - Built with React.js, Node.js, Express, MongoDB.
  - Features include real-time dashboards, authentication, and responsive UI/UX.
- 3. Schedulo : Schedulo Management Platform**
  - Contributed to UI design and development for a modern, responsive web interface.
  - Implemented React.js components with clean layouts and intuitive user workflows.
  - Focused on UX, accessibility, and visual consistency
